

ROAMER

Mobile Welfare Range

The Roamer range of towable welfare accommodation cabins provide an instant solution for your sanitary, welfare and canteen requirements on site. A range of sizes and options are available to ensure the comfort and wellbeing of today's evolving workforce.

ROAMER | 136E

7 Person Mobile Welfare Cabin

The CabinTec Roamer 136E offers a compact and lightweight welfare solution for sites or locations where no local amenities are available. Easy-to-deploy and ready-to-use within minutes, the 136E can comfortably seat up to 7 people while providing separate toilet facilities along with a drying room and a readily available hot water. All standard welfare cabins are fitted with economical silenced generators and energy saving features to reduce fuel consumption, lower noise pollution and cut emissions.

Numerous security features are included to offer the reassurance that your unit will remain where you left it and your kit is safe inside. Designed to withstand the demanding rental market, Roamer welfare units are built using the best quality components and materials to ensure the reliability and years of service your business requires.

Key Functional Features

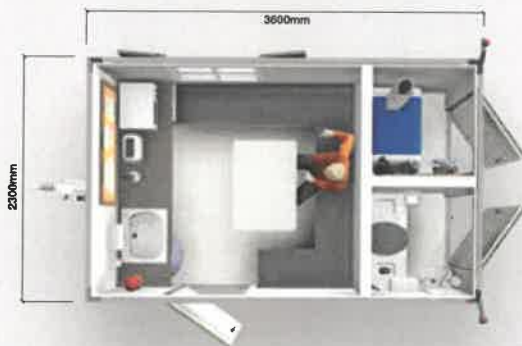

Heated Canteen area with seating for up to 7 People	Fully equipped Kitchen area with fresh & waste Water	Fully recirculating Chemical Toilet	Full Forearm Sink with hot running Water	Drying Room	6kVA Silenced Generator
